Paula Hertel from Agesong on aging

In the next 10 – 15 years there will be a doubling of the population over 65 and the biggest segment will be over 85 and 2011 will see the biggest increase in population

Agesong runs assisted living but also employs educators of public and caretakers

Promotion of healthy aging vs. unhealthy aging and how these feelings can affect the individual.

One of the methods they teach for healthy aging is meditation, taking the time to reflect upon the feelings that the individual has regarding his/her aging  
 Until the public begins to see aging in a more positive light it is difficult to shift the cultural perception of aging  
 The external messages about aging have a very dramatic effect on personal and societal feelings about aging and it's important to filter those messages
